

PACKARD HEALTH MISSION

To provide the best care possible for our patients and community, including people whose economic, cultural and social conditions might otherwise prevent them from getting health care.

HOW YOU CAN HELP

DONATE

Your contributions help to provide quality health care to children and adults who have little or no access to medical care. We are a 501(c)(3) not-for-profit organization; all gifts are tax deductible.

BECOME A PATIENT AND REFER PATIENTS

Packard Health is considered ñin networkö by most insurers. For patients without health insurance, options include a sliding fee scale and other discounts on fees. Income from insured patientsö about half of those we seeö helps enable us to provide care for those not currently insured.

Packard Health News

E-Prescribing

Packard Health is now e-prescribing. The öDrFirstö system allows us to send a prescription directly to the pharmacy before our patients leave the office. The e-prescribing system not only is fast; it also checks for accuracy and for potential interactions with other prescribed medications.

Zing-care

Packard Health is pleased to announce a partnership with Zingermanö and Probility to provide workerö compensation care for employees who are injured on the job at any of Zingermanö Community of Businesses. The partnership started on February 1, 2009. Packardö staff is happy to help keep the Zingermanö staff healthy.

Thank you

Packard Health wishes to thank Probility our clinical partner and sponsor of the upcoming Ann Arbor Observer ads and billboard.

Packard Pacers

Walking Club begins Saturday June 6, 2009. Please join us. Contact pacers@packardhealth.org.

“I chose Packard Health because the health care is exceptional and I share the mission – high quality care for all.”

Jim Frenza, Former director of the Ann Arbor Hands-On Museum

Packard People Profile

Jean Wong, MD

Dr. Jean Wong always wanted to work with underserved populations. On her first day of residency at Packard Health, after many other residency rotations (including as Chief Resident at the University of Michigan's Family Practice Department), she knew she wanted to work here. She wants to make a difference, and says her time feels more valuable working with the underserved "plus it's more fun here" because of the inspiring encounters, and the dedicated staff.

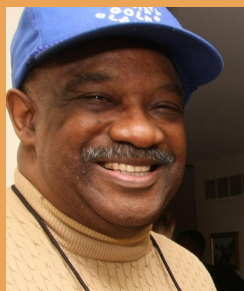

Dr. Wong's clinical interests include women's health and children's health. Her tip for how to stay healthy: "Put yourself first" - prioritize your own health. Many women patients in particular, she points out, put the health and well-being of their families ahead of their own. Sometimes the best step in being healthy is paying attention to your own needs.

Welcome New Trustees

As Washtenaw County's only nonprofit primary care practice, we are pleased to introduce three new Trustees. Nicole Appleberry oversees the low-income law clinic at the University of Michigan. Michelle Debbink is a student in a dual MD-PhD program in medicine and public health at the University of Michigan. Robert Moyad, MD, is the head of the Department of Urology at St. Joseph Mercy Hospital. Welcome!

I trust Packard Health. The atmosphere is warm and welcoming, from the young staff at the front office who are so energetic and professional, to the nurses who are so knowledgeable and so kind, to my doctor who takes the time to answer all of my questions.

At Packard everyone is treated with dignity and compassion, regardless of their income, insurance, medical need, or education. Packard Health is like family, and I wouldn't go anywhere else.

Don Bradley, Retired Sales Manager,
